Subjects

A.C.S. Meeting, 76
Advanced Courses, 272
'Aims and Action in the Classroom,' by H. F. Halliwell, 242
'Aims and Ideals of the Nuffield Chemistry Project,' by E. H. Coulson and R. S. Nyholm, 229
'Alternative Introduction to Boltzmann's Distribution Law, An,' by D. C. Price, 169
'Application of Infrared Spectroscopy to the Study of Structural Isomerism in Metal Co-ordination complexes—A Sixth-Form Project, The,' by E. A. Shoesmith, 285
Atomic Weight—Equivalent Weight—Valency, 159
Avogadro Number, The, 216
Azeotropy, 56

Belgian Students Visit B.D.H., 144
B.H.C. Prizewinning Essay, 111
B.P. Conference, 52
British Committee on Chemical Education, The, 271

'Calculation of Physio-Chemical Data from Sorption Measurements,' by M. I. Pope, 273
Carcinogenic Substances, 179
Careers in Chemicals, 251
Careers in Teaching Science, 67
'Chemical Education and Training in the Soviet Union,' by W. K. Wilde, 233
'Chemical Education in Nepal,' by J. C. Hileman, 248
Chemical Society Research Unit in Information Dissemination and Retrieval, The, 252
Chem-Study Films, 186
'Chemistry Learning Programmes for Fifth- and Sixth-form Use,' by P. S. Adey, 302
Conductivity, 216
Conductivity, 320
Conference on the Education and Training of Chemists, 249
Corrosion Chart, 141
Courses for Teachers, 110
Credo, 185
Cubic Decimeter or Litre?, 1

Deep Sea Diving, 80
Demonstration of Lattice Dislocations in the Teaching Laboratory, 21
'Dilution and Infinite Dilution: A New Look at Old Words,' by M. Sipro, 139
Distillation of Binary Liquid Mixtures, 269

'Eight-Millimeter Teaching Films,' by A. M. Stewart, 77
Eight-Millimetre Loop Film, The, 220
Educational Aids, 186
Educational Expenditure, 318
Education in Science, 138
Electronic Approach to Organic Chemistry: II. How far in Schools at Present, The, 218
Errata, 141, 186, 249
Exchange of Journals dealing with Chemistry, Education and Teaching, 138

Films for Teacher, 53, 104, 215, 250

Subjects—*continued*

'Formulae Relating to Second-Order Reactions,' by E. A. Guggenheim, 81
Future Demand for Scientists, 301

Gas Chromatography-Mass Spectrometry Course, 252
'Gas-Liquid Chromatography, A Sixth-form project,' by R. J. Frost, 224
G.C.E. 'A'-level Entries, 158
Gibbs, Dr F. W., 163
Grant by the Nuffield Foundation, 322

'Heavy Hydrogen and Light Helium,' by J. C. Bevington, 196
High School Chemistry Teachers Magazine, 137
Historical Method, The, 55, 157

In-service Training for School Teachers, 2
Intrepretation of Organic Spectra, 92
Interpretation of Sorption Isotopes, 83
Ion Exchange, 179

'Laboratory Course in Physical-Organic Chemistry,' by N. S. Isaacs, 8
Laboratory Handbook of Toxic Agents, 291

Making Films, 57
'Matex' Portable Classroom Laboratory, 134
Metric System, The, 138
Misconceptions in Organic Chemistry, 106
Models of Molecular Orbitals, 156
Molarity Concept in Titrimetric Analysis, The, 219
Molarity of Solutions, 159
Monographs for Teachers, 220, 266
'More Separations of Ions with a modified Ring Oven,' by D. Abbott, 68
'Multiple-choce Tests in Organic Chemistry,' by W. Kemp, 135

New Apparatus, 133
New Course Facilities, 174
New Filmstrip, 92
New Laboratory Miniature Scaffolding, 184
New Publications, 137
New Science Tower—University of Singapore, 284
New Soviet Chemistry Journals in English Translation, 232
New Training Centre, 252
No Stamp for Dalton, 105
'Novolaks in Glasgow,' by K. S. Tetlow, 65
Nuffield 1966, 202
Nuffield Books, The, 228
'Nuffield Chemistry Background Books,' by William Anderson, 299
'Nuffield Diffraction Grids and The Nuffield Periodic Table,' by B. J. Stokes, 306
Nuffield Film, 251
Nuffield—The Problem for Schools, 221
'Nuffield Under Trial,' by A. Jackson, 280

Objective Tests, 105
'Observations on the Use of the Magnetic Balance as a Teaching Aid, an Inorganic Chemistry Experiment,' by D. A. Brisbin and P. Kuntz, 294
'Organic Name Reactions,' by J. G. Stark, 119
On Course, 179
One-term Refresher Courses, 82
Oxford University Conference for Science Teachers, 56

'Part Played by Petroleum Chemicals in Raising Standards of Living in the United Kingdom, The,' by J. M. Burns, 111
'Physical Adsorption of Gases on Solids: Interpretation of Sorption Isotherms,' by M. I. Pope, 83
Physical-Organic Chemistry, 158
Physics Education, 138
'Plea for more 'Activity' in the Teaching of Physical Chemistry in Schools,' by T. E. Rogers and B. C. Williams, 164
Polarization, 267
Postgraduate Diploma in Nuclear Science and Radiation Safety, 241
Presentation and Construction of a Helical Periodic Table, 107
Presentation of the Periodic Table, 216
Programmed Learning, 89
Programmed Learning in Chemistry, 295
Project Work in Chemistry, 36
Publications Received, 153, 214, 266, 316
'Published Material, The,' by Martin Rogers, 289

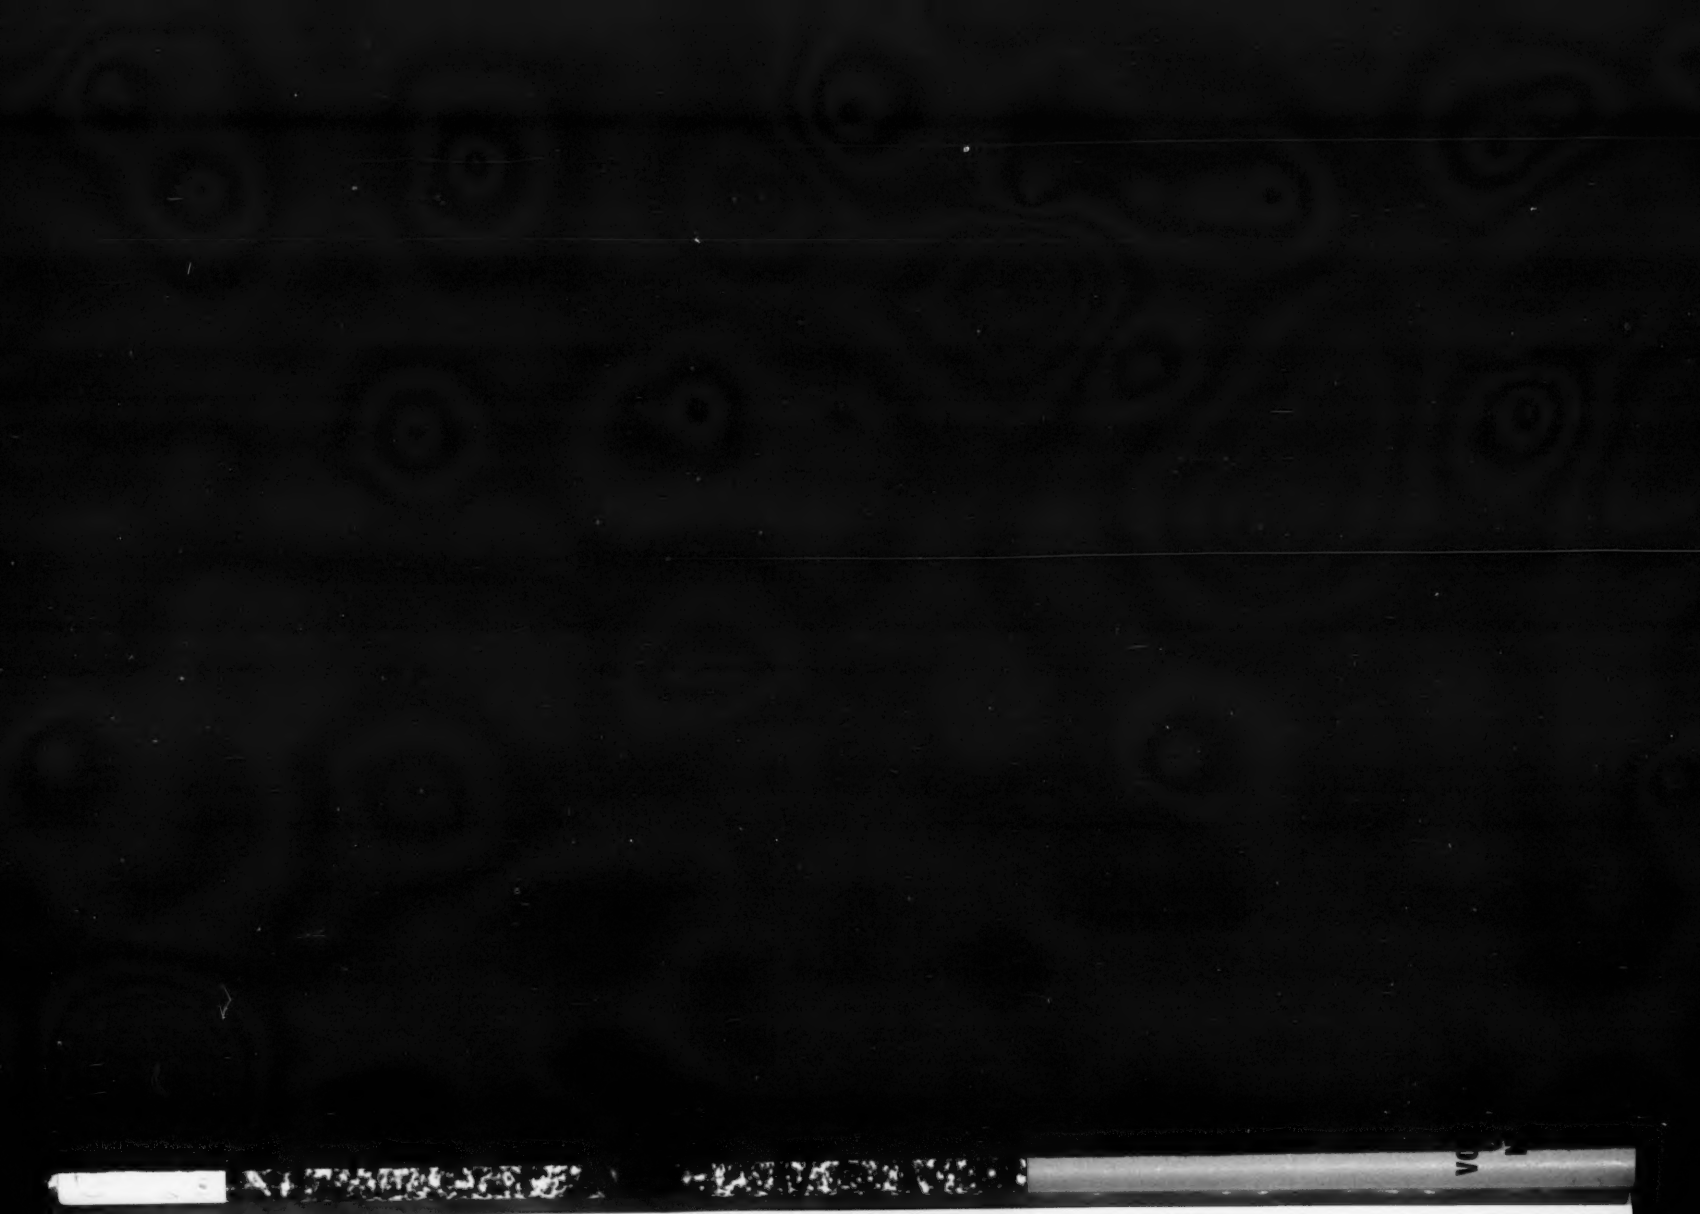
Radioisotope Courses for Science Teachers, 82
Rational Presentation of Organic Chemistry to Sixth-formers,' by R. C. Whitfield, 18
Reader's Forum, 54, 105, 155, 216, 267, 319
Recent Books, 44, 93, 145, 203, 253, 309
Republic of Ireland, 144
Retirement of Professor E. A. Guggenheim, 279
'Reversible Non-isothermal Changes of State for an Ideal Gas', by A. H. Kalantar, 246
R.I.C. Educational Meetings, 43, 64
R.I.C. Education Officer, 2
Russian for Chemists, 138

Science and Socity, 109
Science Education in Developing Countries: Activities of the British Council, 185
Science Research Council, 295
Science Teacher's Abstracts, 168
Scientific Research in Schools, 186
Semi-micro Reagent Racks, 252
Single-Concept Films for Teachers, 154, 317
Shell Teacher's Fellowship, 110
'Some Common Misconceptions in Organic Chemistry,' by J. G. Stark, 37
'Some notes on the Application of Infrared Spectroscopy to Inorganic Chemistry,' by W. B. Simpson, 98
'Some uses of the Epoxy Ring in Industry,' by L. W. Chubb, 3
Spot-test Outfit, 133
Statement on the 'Stereochemistry of Displacement Reactions,' A, 267
'Suggested Methods for Teaching the Industrial Process, A,' by K. J. P. Adamson 187
Summer Schools in Chemical Education, 298
'Summer School in Instrumental Techniques for Grammar-School Students,' by D. R. Browning, 88
Summer School—Spectroscopy, 228
Symposia and Conference for Teachers, 42
Symposia for Teachers, 89, 228
Symposium on Photochromism, 298
Synthetic Optical Crystals, 220
Systems of Units for Molar and Molecular Quantities, 319

'Teaching of Chemical Technology at the University of Manchester Institute of Science and Technology, The,' by P. Wiseman, 175
Teaching of Chemistry in Pilot Classes in Italy, 90
'Teaching Physical Chemistry in a Technological College,' by R. J. Kuffner, 117
Teaching of the Chemical Equilibrium Constant, 156
'Teaching Thermodynamics to Sixth-formers,' by J. E. Spice, 22
Teaching Thermodynamics to Sixth-formers, 105
Thin-Layer Chromatography, 220
Training on the Job, 116
True or False? 319

Unesco Pilot Project for Chemistry Teaching in Asia, 142
Unified Approach to Sixth-form Chemistry Teaching, 155
Unilever Educational Publications, 298
University of Surrey, 291
'Use of a Transformer Ratio-Arm Bridge to Determine Dipole Moments,' by E. F. Brittain, B. A. Clutterbuck and A. Sheaf 180
'Uses of Programmed Learning in the Teaching of Chemistry to Degree Standard,' by R. B. Moyes, 182
'Use of the Molarity Concept in Tritimetric Analysis, The,' by J. G. Stark, 70
Usefulness of Acetanilide, The, 321
USSR, The, 144

Visit of Students to B.D.H. Godalming, 186

What Courses should we provide? 296
'Why Teach Chemistry at all?' by Lord Todd, 222


Year of Chem-Study, A, 54
